

Dear Judge William C. Griesbach

I am writing this letter to express my regret for downloading pictures of victimized girls. I thought I only had CGI pictures, but to find out that some of the pictures were of real girls leaves me with a sick feeling in the pit of my stomach.

I don't like who I am. Not just because of the crime I committed, but because of my inability to have any semblance of a life. This isn't meant to be a self pity bit, it's just a fact.

I don't like who I am, but I want to change that.

Sincerely  
Jesse Belle
